

Professional Cleaning Solutions for the Bar

Brought to you by the critical cleaning experts at Alconox

When cleaning bar, serving and food wares; or cleaning equipment and serving surfaces, you want cleaning solutions that are safe to use, non-caustic and highly effective. In fact you want nothing but a deep clean right down to the surface. That's the power of the critical cleaning solution family for bars and restaurants by Alconox: Liquinox™ manual cleaner and Alcojet® automatic machine washing detergent. Specially formulated to clean wares, equipment and surfaces squeaky clean and leave them residue free—with minimum effort required. Highly concentrated to save money and shelf space, both Liquinox and Alcojet are biodegradable and drain safe. Professional cleaning solutions that outperform—from the critical cleaning experts at Alconox.

Liquinox™ Critical Cleaning Liquid Detergent

Liquinox is a perfect everyday sink-side detergent especially effective when used to clean glasses and other barwares. Liquinox is a water-based, concentrated manual cleaner. It's perfume-free and free-rinsing for reassurance that wares are cleaned right down to the surface, with no residue left behind. Liquinox is a versatile hard-surface cleaner and is biodegradable, phosphate-free, and non-corrosive. (Cat. No. 1232)

Alcojet® Critical Cleaning Low-Foaming Powdered Detergent

Alcojet serves as an excellent dishwasher detergent to bring sparkling brilliance back to barware. Perfume-free and without rinse aids, Alcojet penetrates stubborn glassware soils to ensure a deep, true clean right down to the surface. Alcojet water-based general purpose machine cleaner can also be used as a manual cleaner which removes stubborn grease stains and foul odors from other foodservice wares and equipment. Alcojet is biodegradable, non-corrosive and concentrated to save money and shelf space. (Cat. No. 1404)

Application and Uses for Liquinox & Alcojet:

Safety First

Liquinox and Alcojet are drain-safe, safe on aluminum and coated pans, and equipment. Wear non-latex gloves when handling to prevent dishpan hands. Liquinox and Alcojet are mild, non-caustic cleaners that are only mild skin irritants - similar to any dish soap.

Specially formulated to clean wares, equipment and surfaces squeaky clean and leave them residue free—with minimum effort required. Used to clean glass, stainless steel, metal, aluminum and soft metals (if rinsed promptly), plastic, rubber, fiberglass, porcelain and ceramic.

Liquinox

Manual cleaning (not for machine use) of food, wine and drink, cooking oil, grease stains and other typical bar and restaurant soils. To use, simply mix 2 Tbsp Liquinox per gallon of hot tap water. Soak and scrub, rinse with tap water and dry. One gallon Liquinox makes 100 gallons of detergent solution.

Alcojet

Automatic warewashing machine cleaning of waxy oil, food, grease, baked on carbon build-up, cooking oil. Please consult machine manufacturer instructions or contact Alconox technical support for advice on using Alcojet for your specific warewashing system. For manual use, mix 1 Tbsp per gallon of hot tap water. Soak and scrub, rinse with tap water and dry. Each 4 lb box Alcojet makes 100 gallons of detergent solution.
