

# Professional Cleaning Solutions for the Restaurant showcasing **Liquinox™** and **Alconox®**

Brought to you by the critical cleaning experts at Alconox

When cleaning tableware you want cleaning solutions that are powerful enough to penetrate, break down and help lift and remove food soils. Cleaning solutions that are as safe to use and non-caustic as they are highly-effective. You want nothing but a deep clean right down to the surface. That's the power of this essential pair of critical cleaning solutions for tableware: Liquinox™ and Alconox® are both specially formulated to clean wares and leave them squeaky clean and residue free—with minimum effort required. Highly concentrated to save money and shelf space, both Liquinox and Alconox are biodegradable and drain safe. Professional cleaning solutions that outperform—from the critical cleaning experts at Alconox.

**Liquinox™**

**Level of soiling**

**Alconox®**

Stocking both Liquinox and Alconox will ensure your operation has the right kind of cleaning power for the task at hand. From lighter soils to baked on or even carbonated grease and food particles.

## **Liquinox™** Critical Cleaning Liquid Detergent

Liquinox is a perfect everyday sink-side detergent especially effective when used to clean tableware. Liquinox is a water-based, concentrated manual cleaner. It's perfume-free and free-rinsing for reassurance that wares are cleaned right down to the surface, with no residue left behind. Liquinox is a versatile hard-surface cleaner and is biodegradable, phosphate-free, and non-corrosive. (Cat. No. 1232)

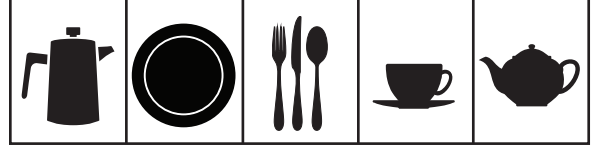

## **Alconox** Deep Action Cleaner™

Alconox is ideal for cleaning tough oils, grease, carbon build-up, and food residue on tableware. A hot Alconox detergent solution effectively lifts stubborn baked-on soils off of serving dishes that menu items are cooked in, and leaves them like-new, cleaned right down to the surface. Alconox is drain-safe and made in concentrate to save money and shelf space. (Cat. No. 1144R)

## Application and uses for Liquinox and Alconox:

### Safety First

Liquinox and Alconox are drain-safe, safe on aluminum and coated pans, and equipment. Wear non-latex gloves when handling to prevent dishpan hands. Liquinox and Alconox are mild, non-caustic cleaners that are only mild skin irritants – similar to any dish soap.

### So many uses across your entire operation

Specially formulated to clean all kinds of wares, equipment and surfaces squeaky clean and leave them residue free – with minimum effort required. Used to clean stainless steel, metal, aluminum and soft metals (if rinsed promptly), glass, plastic, rubber, fiberglass, porcelain, and ceramic.

### Liquinox

Manual cleaning for cooking oil, food residues, grease stains, typical restaurant soils.

### Alconox

Manual cleaning for typical restaurant soils, baked-on carbon buildup, waxy oil residues, cooking oil, food residues, grease stains.

### How to use:

Simply mix 2 Tbsp Liquinox or Alconox per gallon of hot tap water. Soak and scrub, rinse with tap water and dry. One gallon Liquinox makes 100 gallons of detergent solution and 4 lb Alconox makes 50 gallons of detergent solution.

**Helpful Tip:** A capful of Liquinox and water makes an excellent pre-soak for flatware.
